EDUCATION

B.S. Applied Informatics

College of Polytechnics Jihlava

01/2013 - 01/2016 Jihlava, Czech Republic

Electrotechnics

High School of Crafts and Services

01/2010 - 01/2012 Moravské Budějovice, Czech Republic

EXPERIENCE

Android Developer

Etnetera a.s.

07/2018 - Ongoing Prague, Czech Republic
<http://etnetera.cz/>

In Etnetera I have worked on several projects. My experiences there ranges from maintaining legacy Java code to developing new apps in Kotlin using latest features and libraries.

Android Developer

OKsystem a.s.

07/2017 - 05/2018 Prague, Czech Republic

I worked in a team alongside with iOS and backend developers to create an application for encrypted communication, including messaging and VoIP. The app was written in Java and C++ using NDK.

Android Developer

nextap solutions s.r.o.

11/2016 - 04/2017 Prague, Czech Republic

I was working on a project for London company in an international team on developing a native android app ClearScore. The app is written in Java and based on RESTful services. We focused on nice UI and animations, which was one of my responsibilities there.

PHP & Python web developer

PROJECTS

The use of smart mobile technologies in sports/fitness and nursing care

📅 02/2015 - 10/2015 📍 Jihlava, Czech Republic

Applied research grant with the goal to design and to program a set of applications (on multiple platforms) for sport, fitness and healthy lifestyle.

- Within this project I made a sports application for smart glasses Recon Jet.
